

Occhio

Mito

Occhio

light is evolution

In the beginning, there was light, and light is evolution. An evolution that is creative, that constantly renews itself and that will never end. Light means life. Quality of light means quality of life.

light is life

Mito

The myth of light.

Mito sospeso

Our masterpiece – perfection down to the last detail, unique in its design and function

Design Axel Meise, Christoph Kügler

Mito sospeso

suspended luminaires – touchless control

touchless control – with the help of »touchless« control, Mito sospeso near a user's hand can be controlled with a simple gesture – touchlessly and intuitively thanks to innovative infrared sensors.

Depending on the situation, gesture control can also be deactivated.

Magic moments: With Occhio »touchless control« Mito sospeso can be controlled as if by magic. Simple gestures are all it takes for Mito sospeso to change the light intensity and even the color of light. Switches, dimmers, etc. are a thing of the past.

Mito sospeso

suspended luminaires – up/down fading

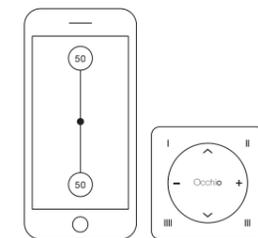

two in one – Mito sospeso offers double-sided light output with its two LED rings. The uplight and downlight can thereby be operated independently of each other.

up/down fading – a unique feature: Via touchless control or Occhio air, the full luminous power can be drawn from one side to the other.

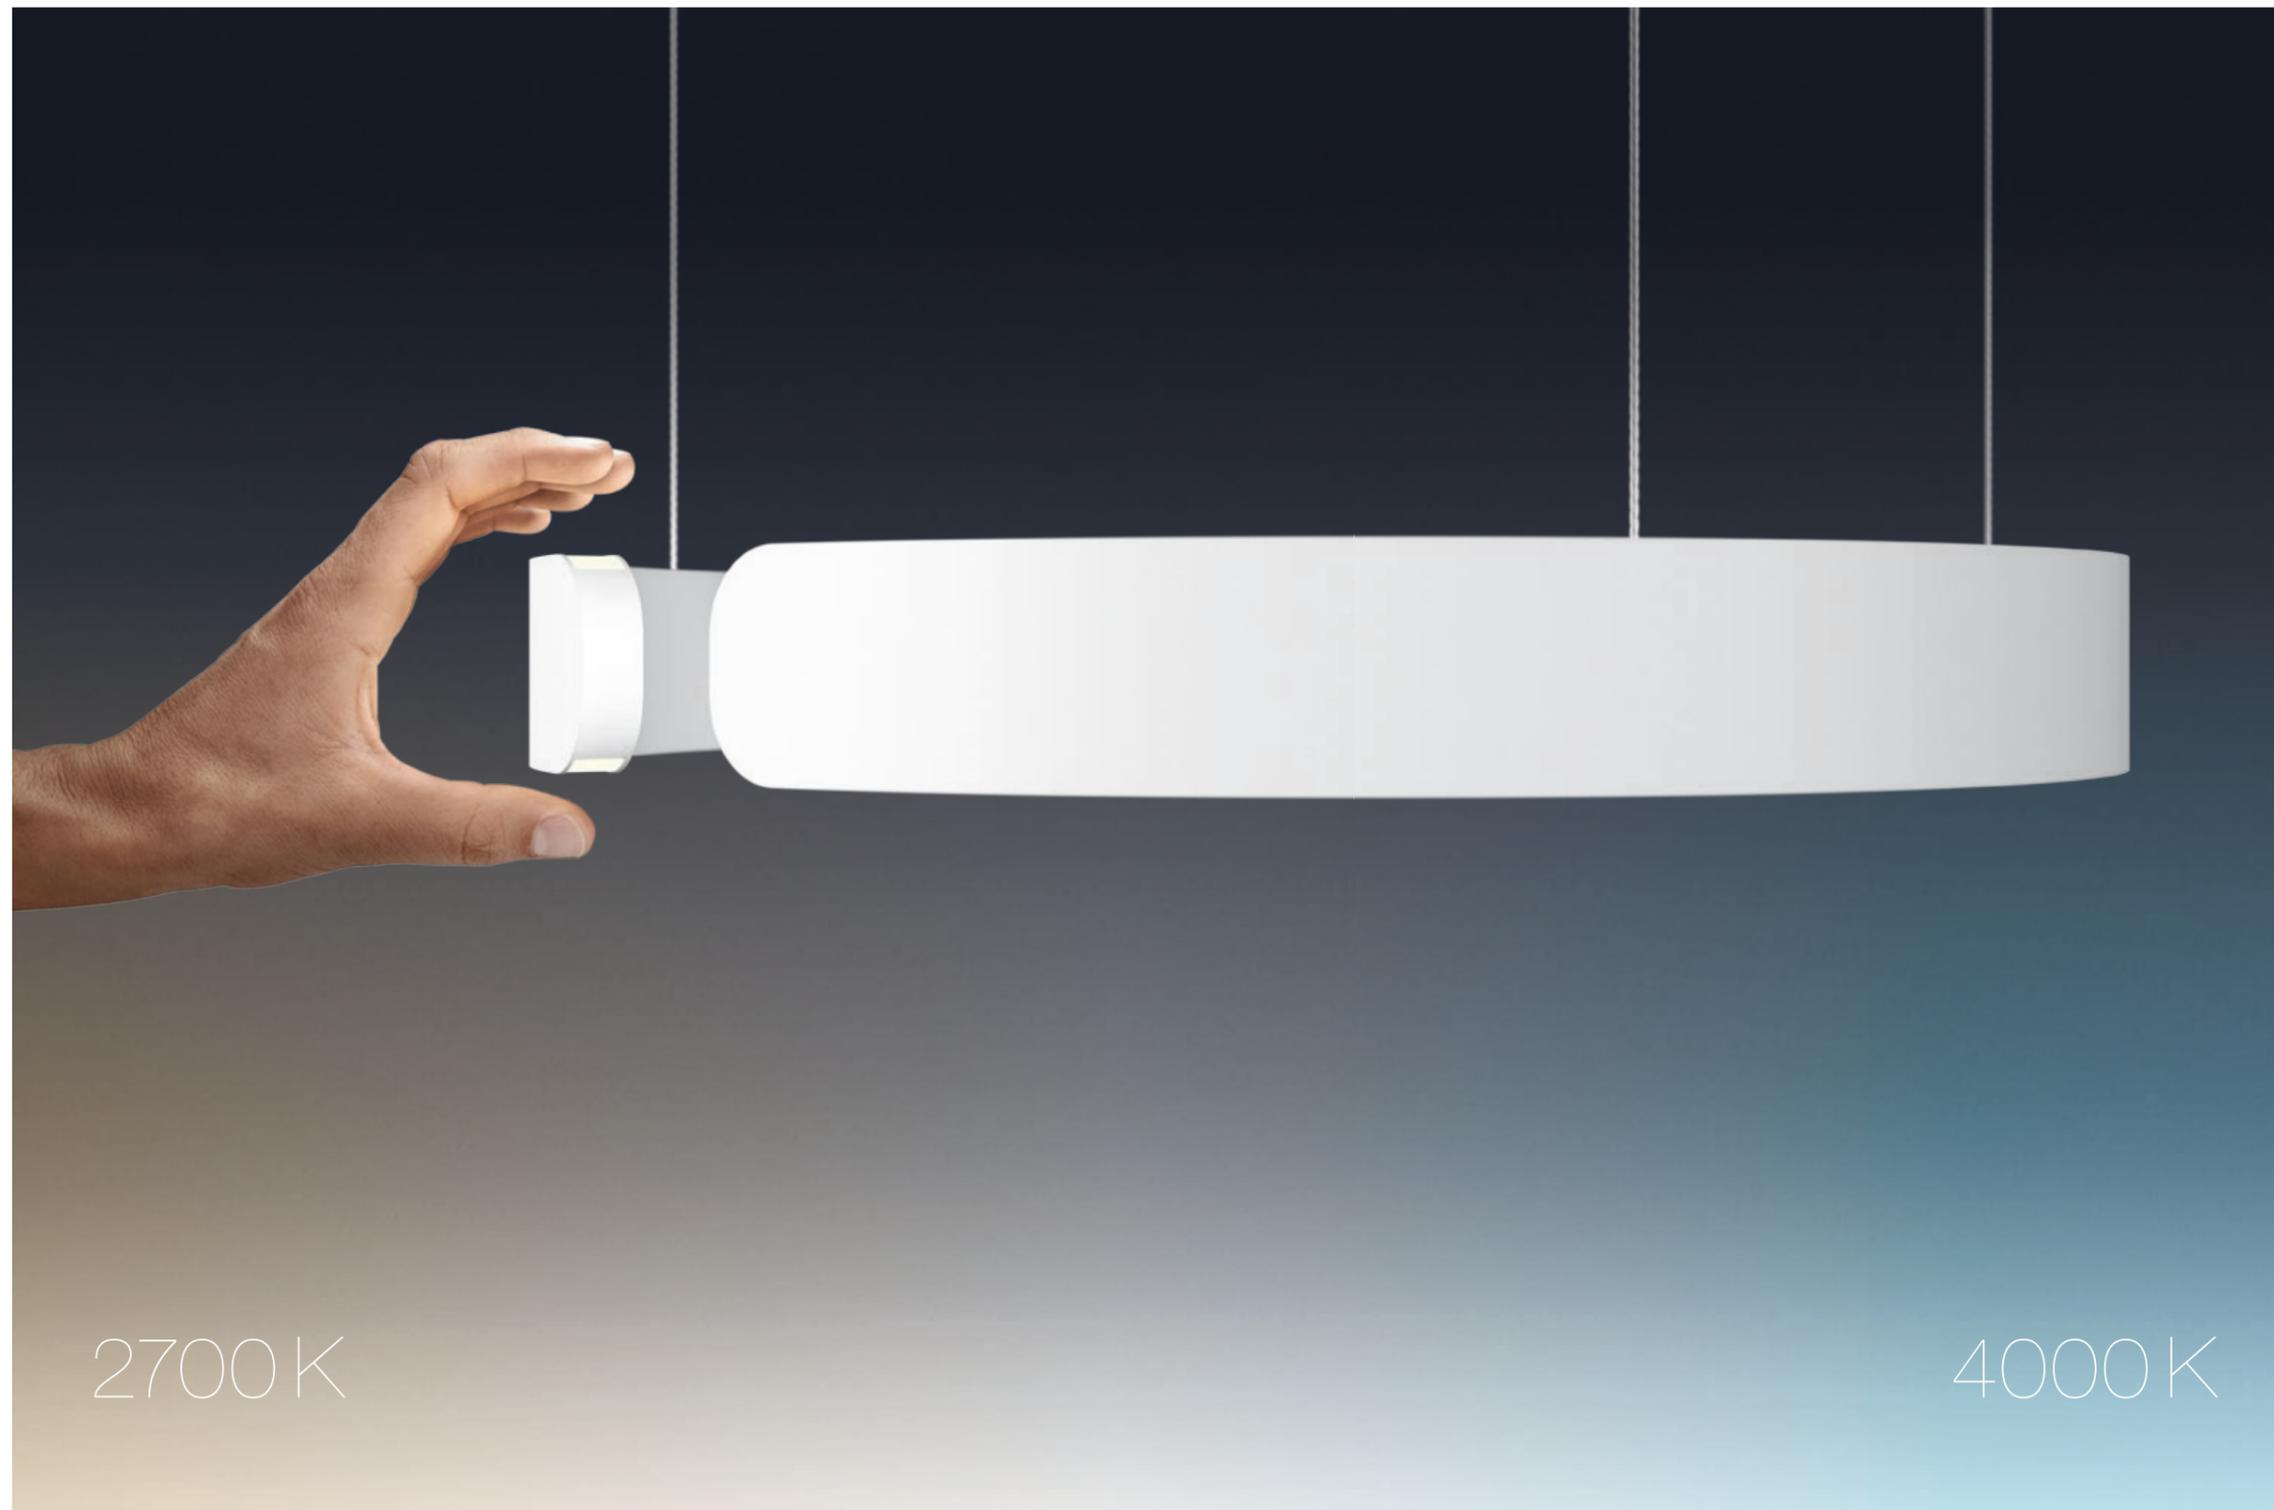

Occhio air – intuitive
Bluetooth control (optional)

One touch is enough to direct the light emitted by the Mito sospeso. Via gesture control or Occhio air, the light can be continuously faded up and down. This creates fascinating new possibilities in interior design that will inspire.

Mito sospeso

suspended luminaires – color tune

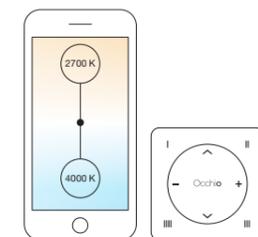

Mito adjusts to your mood: Via gesture control or Occhio air, you can decide which color temperature you prefer depending on the situation. Whether you opt for a more warmly lit atmosphere for relaxing in the evenings or a more stimulating, cooler light to get your work done: It's your choice – any time.

color tune – a feature for regulating the color temperature of Mito luminaires. A simple gesture or Occhio air lets you set the color temperature. From warm light tones with 2700 K to cooler light with 4000 K. A fixed, preset light color is also possible.

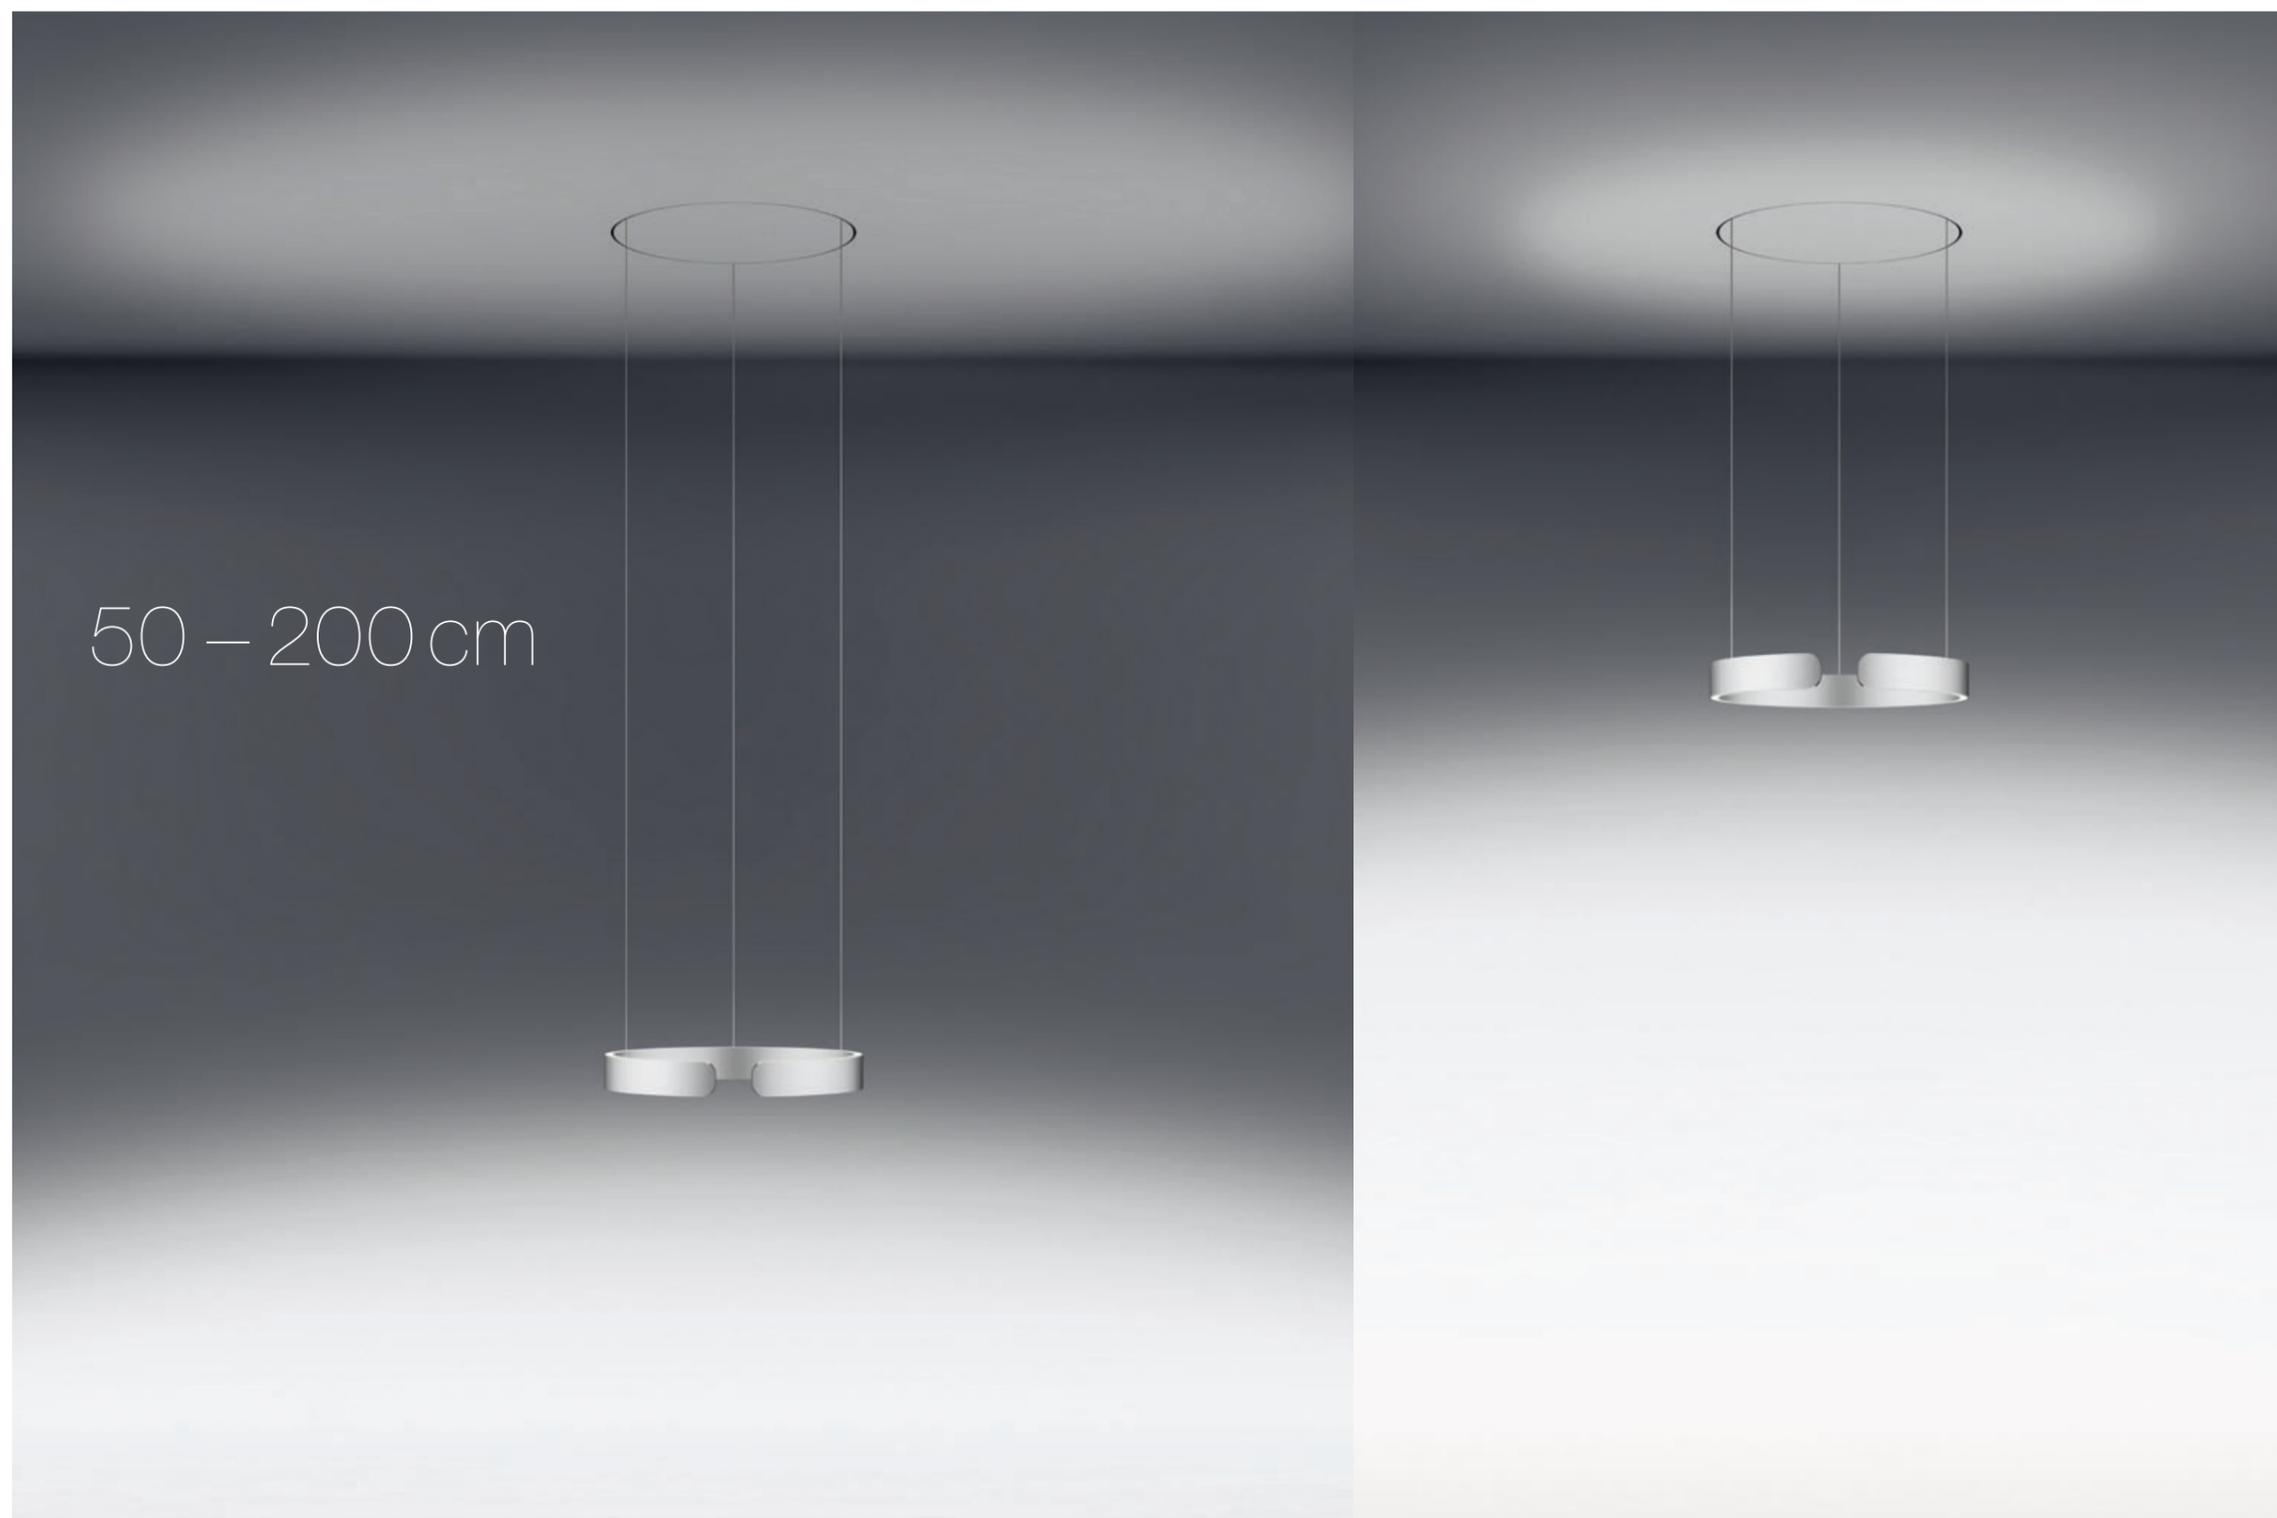

Occhio air – intuitive
Bluetooth control (optional)

Mito sospeso

suspended luminaires – height adjustment

height adjustment – the pendant length can be adjusted between 50 cm and 200 cm with an optional height-adjustment feature. As they move, the cables disappear into the canopy or even slide invisibly into the ceiling («trimless» version, see illustration).

Whether in the room or above a table: Thanks to a unique height adjustment feature, Mito sospeso can be adjusted easily and conveniently. A sophisticated reel mechanism ensures that the ring of Mito always remains horizontal at any desired height.

Occhio air

maximum ease of use for any situation

controller

With the Occhio air controller, you can operate luminaires and create moods in a room without using an app – at any time and anywhere in the room. The controller is available in four colors as a mobile table version or with a magnetic wall mount (optional).

app

The Occhio air app is available free of charge in the App Store or in Google Play. It can be downloaded on tablets or smartphones.

Whether switching on, dimming, fading or creating entire lighting scenarios and groups – thanks to its simple setup and intuitive operation, Occhio air gives you customized light control with options you can change at any time.

Haus B, Munich: Elegant accents bring the rooms together through light. While the bronze Mito ceiling luminaires perfectly complement the interior color scheme of the lounge, the rose gold of the Mito suspended luminaires above the dining table provides a striking contrast.

Martin et Karczinski GmbH, Munich: The perfect light for successful communication. Mito's suspended luminaires envelope conversations like a cloud and foster a creative atmosphere with a light that makes work pleasant. Whether in bronze, rose gold, silver or matt white, the numerous color combinations harmonize with the natural brick background.

Occhio store MUC, Munich: Elegant design meets the highest quality of light. In addition to providing the perfect light, the unique design of Mito turns the office into a place of inspiration. The suspended luminaires create an ambiance in which work become a pure delight.
